

# Wastewater Treatment Specialists

We design and install wastewater treatment systems for commercial and residential applications in the Greater Sydney region.

As a family business with 30 years' experience in wastewater treatment, we offer you a complete service from council planning to system installation and maintenance.

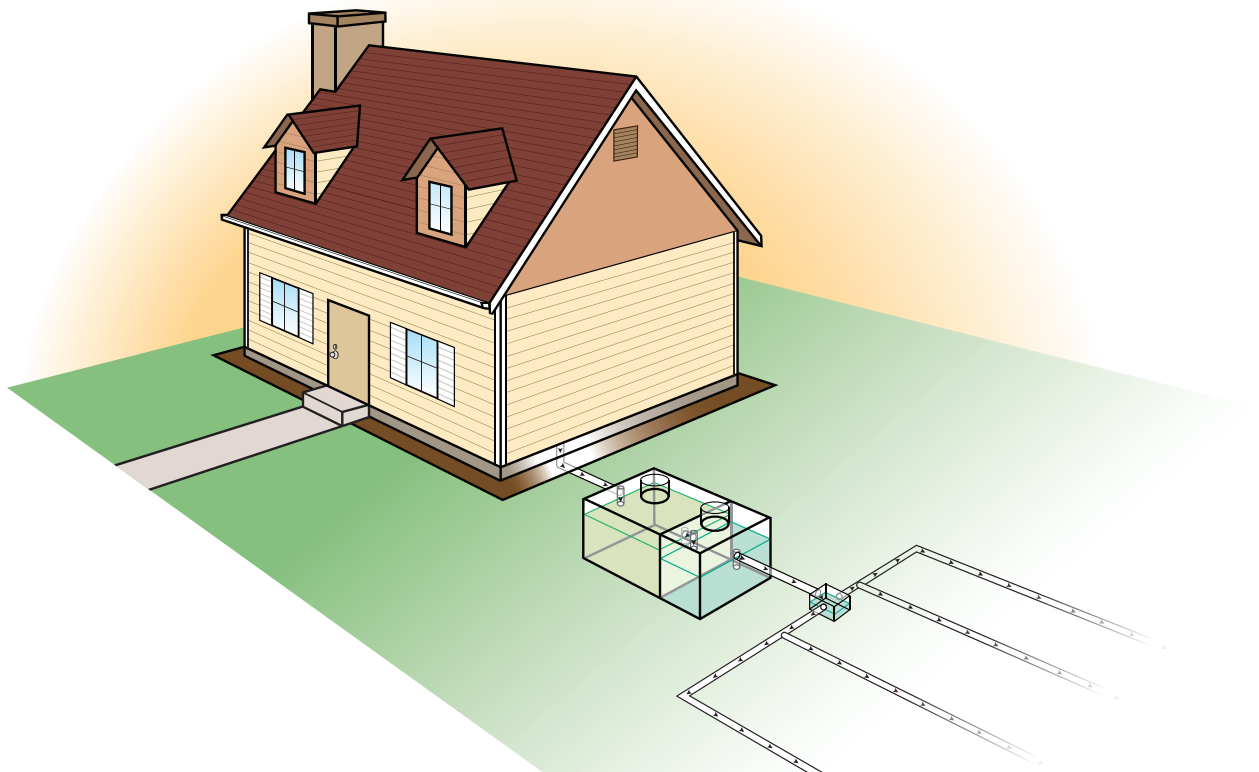

- Septic tanks
- Aerated treatment systems
- Absorption & transpiration beds
- Pump out systems
- Sewer pump stations
- Onsite disposal and design

**Phone Brendan on 0419 976 010 to discuss your wastewater treatment project.**
